udies" be adopted as written. The policy had been viewable in the district for thirty days.

Another policy, having been in effect for the thirty-day comment period, was the "Negotiations and Salary Guidelines". This, too, was adopted.

John Robert Hicken reported to the Board that during 1984 there had been 34,989 swimmers and 3,357 users of the racquetball courts. The Board complimented Paul Mitchell,

manager, for his dedication and good handling of the 38,347 individuals that have used that complex.

It was requested that special attention be given to the grounds at the North Elementary School this coming summer. Mr. Merkley informed the Board that he would take care of that situation.

Other requests made were for a California trip of Sound Investment. The junket would be

Utah Foundation Reports:

Utah Tax Burden About A

Utah's state and local tax burden is about average when measured by personal income and somewhat below average when measured by taxes per capita. This fact was revealed in a series of charts showing various economic, revenue, and expenditure comparisons in the eight Mountain States prepared by Utah Foundation, the private research organization.

The comparison shows that state and local taxes were equal to 11.3% of personal income in

the eight Mountain States and 11.1% for the United States as a whole. The state and local tax burden per capita, on the other hand, amounted to \$963 in Utah, compared with \$1,243 in the Mountain States and \$1,216 in the U.S.

The reason for the apparent low per capita tax burden, according to the Foundation, is that Utah has more children in relation to its total population than any other state. Since children ordinarily are not
